RENEW AND REFRESH PROJECT

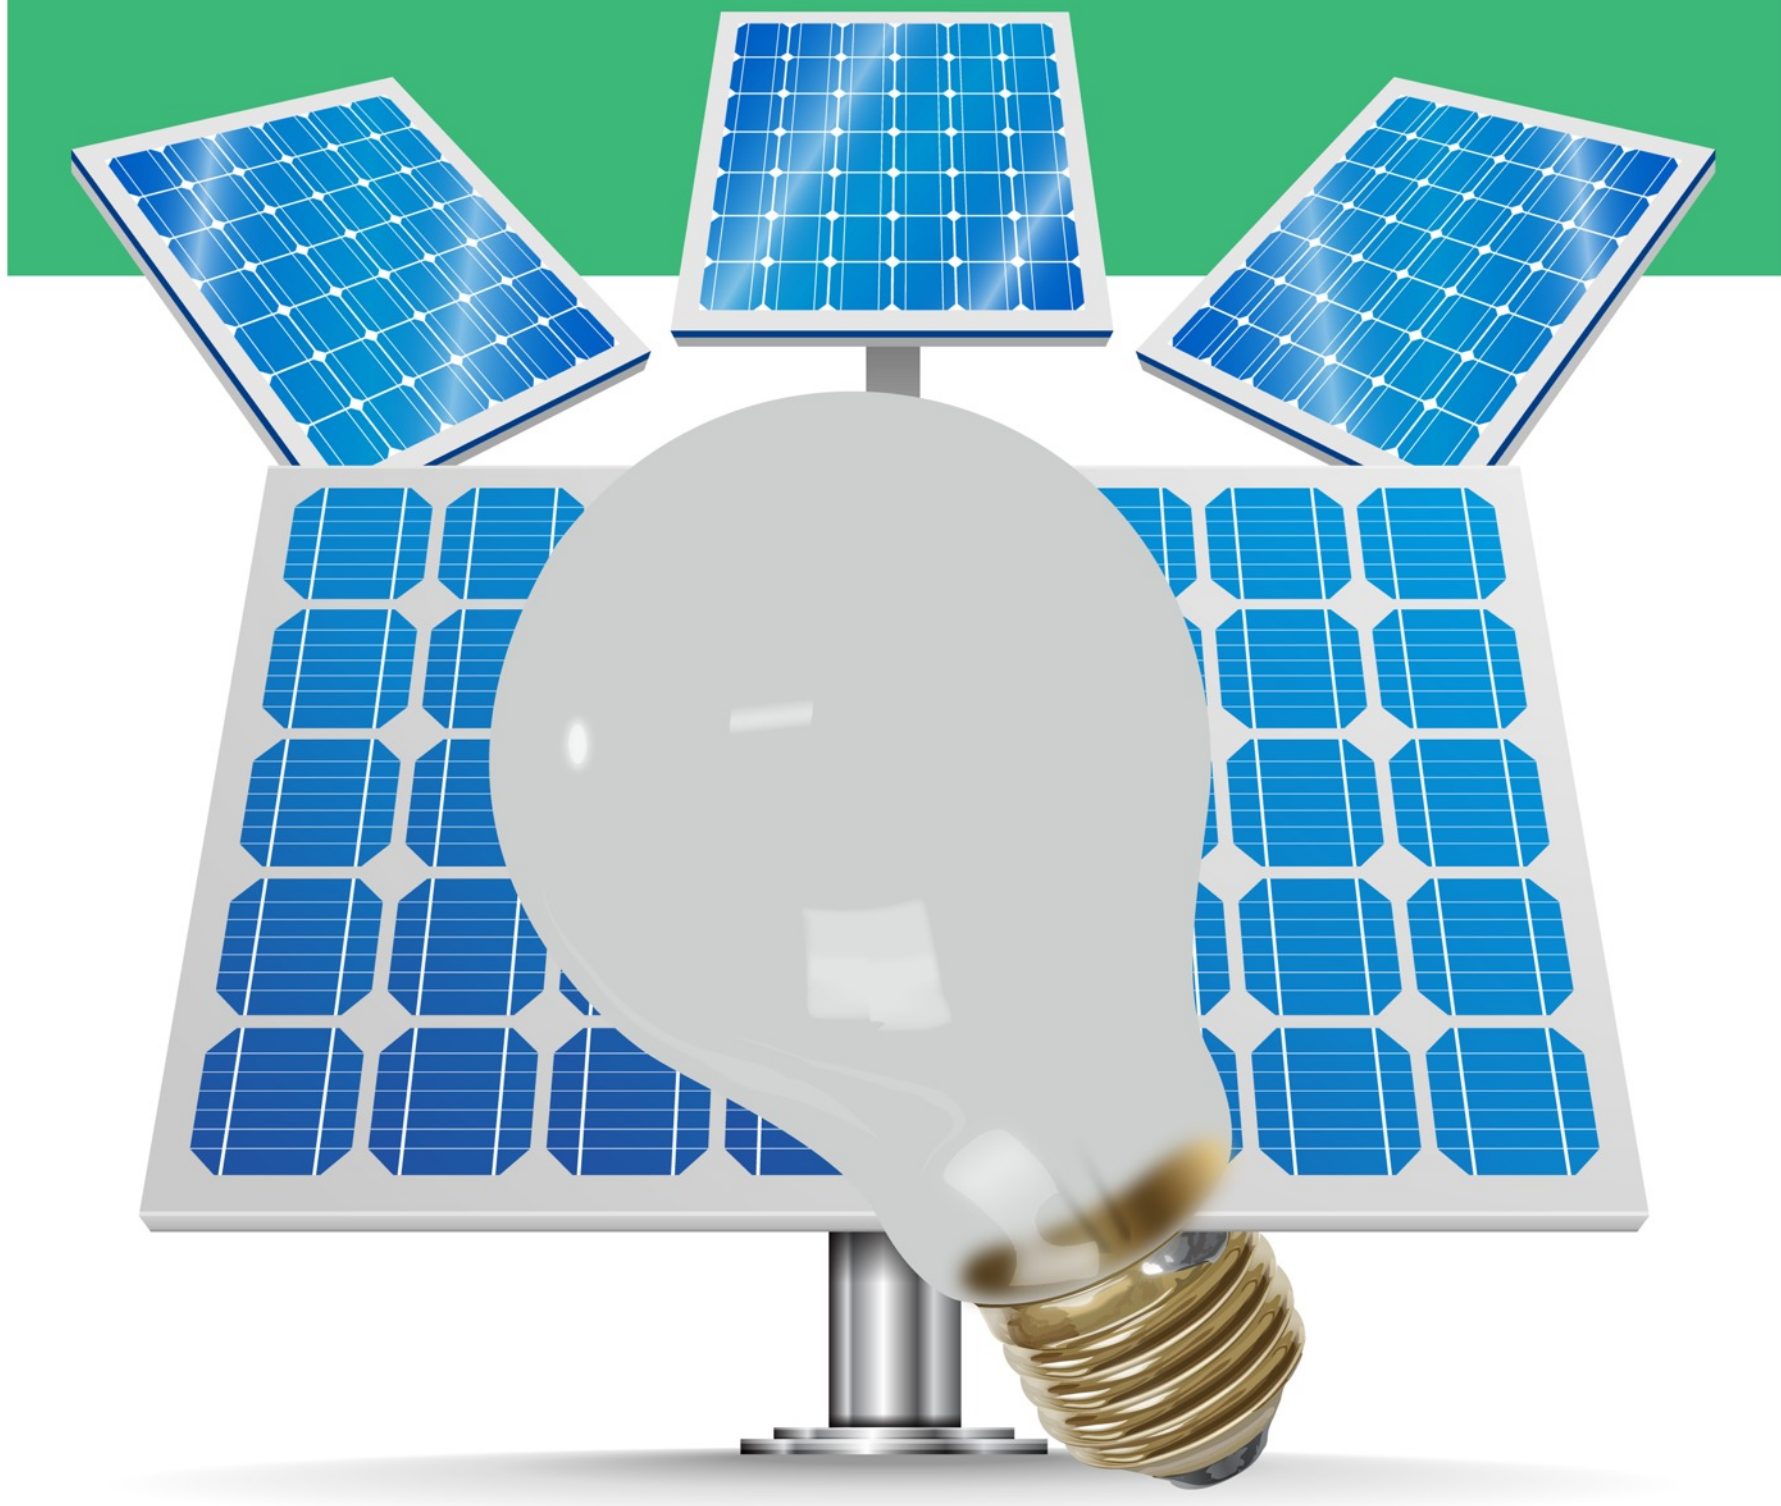

Project Renew and Refresh - (Replacement of Crockery & Kitchen Utensils)

The crockery at the Care Centre is in need of urgent attention. Cracks and chips on enamel crockery poses a continuous health risk by causing bacterial infections such as diarrhoea, resulting in a major cost for the Care Centre. Due to lack of finances the enamel crockery is currently being replaced by plastic bowls which is not ideal. Thus, this project involves sourcing manufacturers of steel crockery to enter into a partnership with, in order for crockery to be replaced annually and pots to be replaced on a quarterly basis.

NBCC GOING GREEN

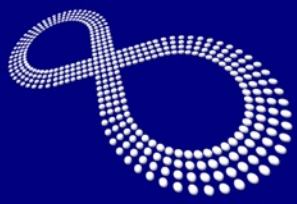

New Beginnings 2016

NBCC Going Green (Solar Project)

With electricity tariffs constantly on the rise, we have come to the realisation that going green is the only solution to maintain sustainability in the future. With a residency of 1400 destitute individuals, this task may seem monumental. As a NPC, we require funding to kick start this project. Increase your B-BBEE rating on the SED element by investing in this vital initiative.

THE CINDERELLA PROJECT

Cinderella Project :

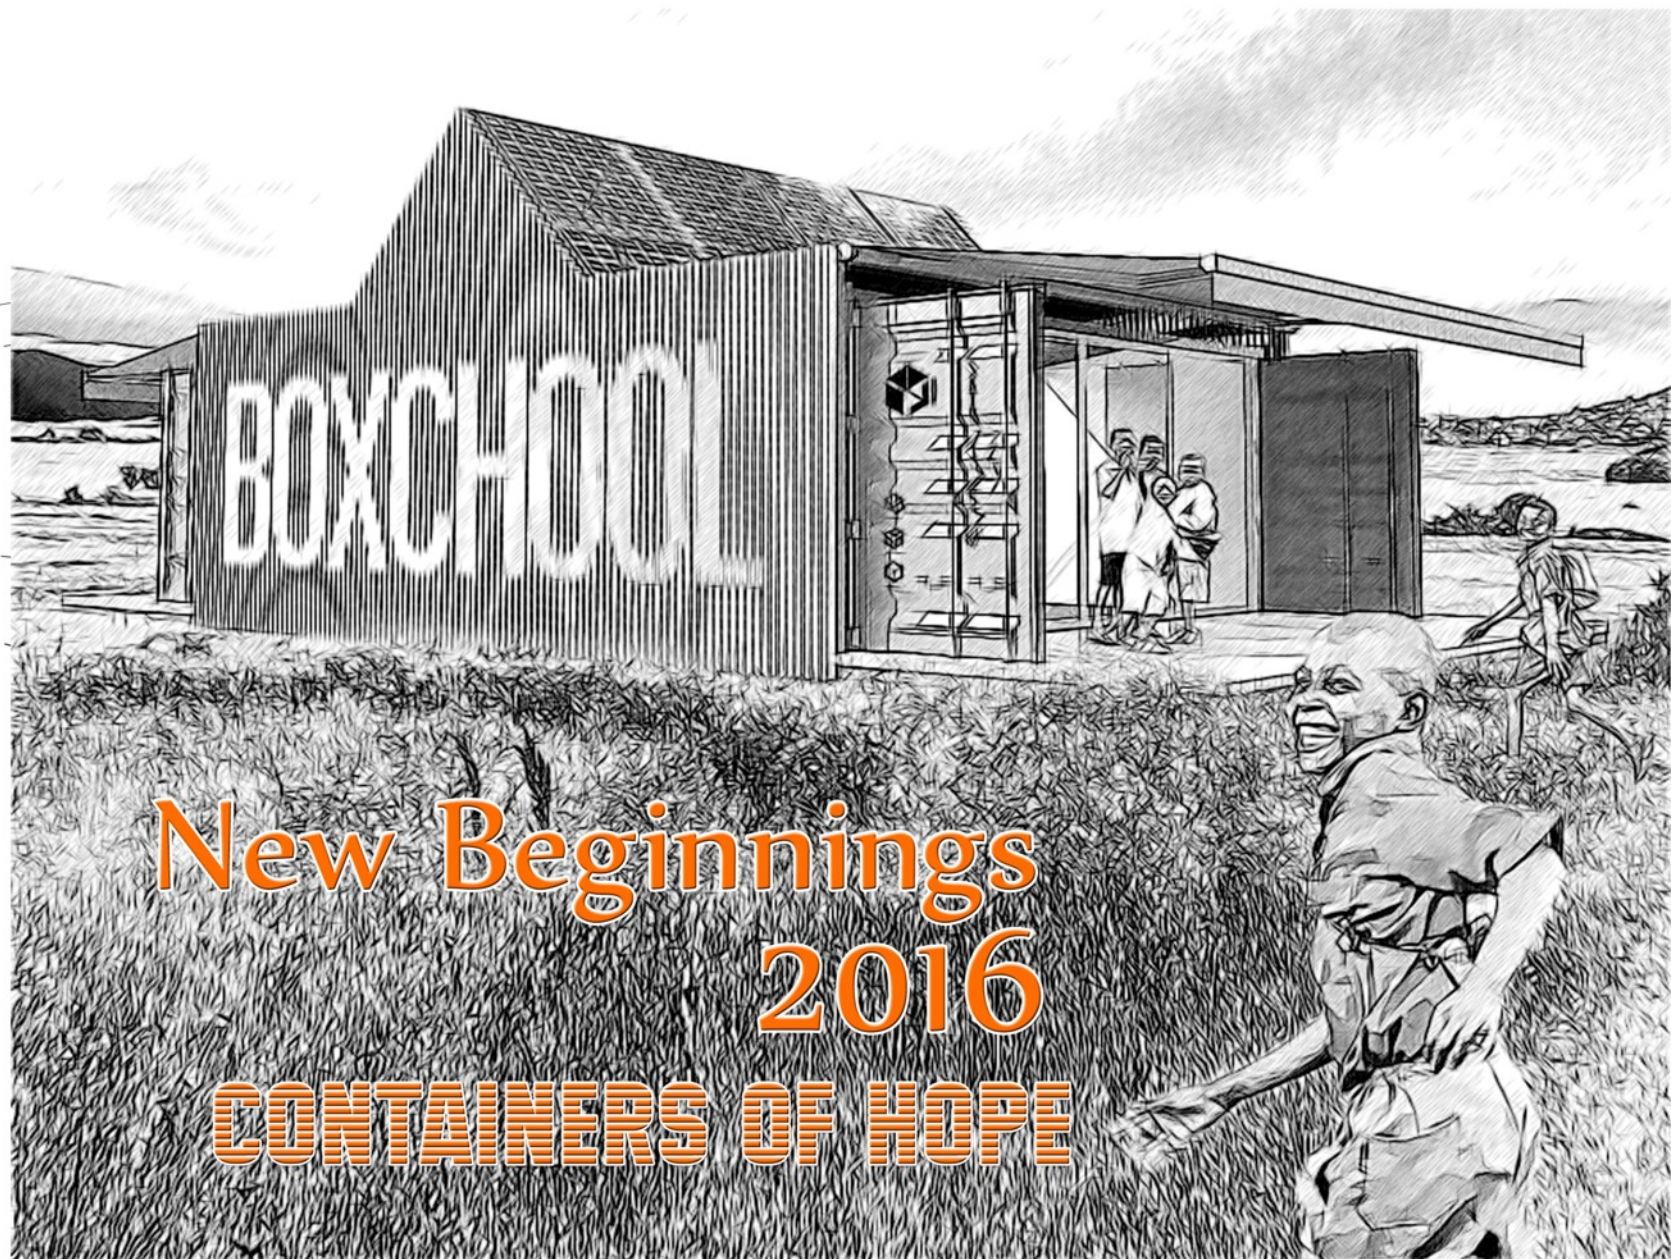

Play your part in making someone's Matric Farewell Fairy-tale come true by donating your matric farewell gown / suit. As we all know, having "the look" for the evening does not only mean clothing, but an outfit is completed with a fabulous hairdo, nails, make up, shoes – and the cherry on the cake of course – accessories. One of the highlights of the evening will also be the carriage ride to the ball. Contact us to find out how you can make a contribution today.

THE LITTLE LAMBZ REVAMP PROJECT

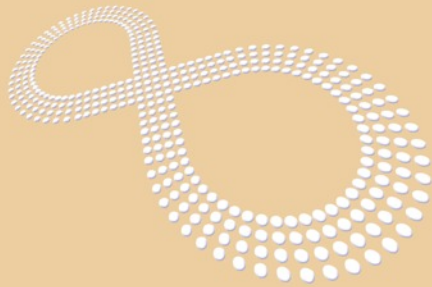

Little Lambz Revamp Project:

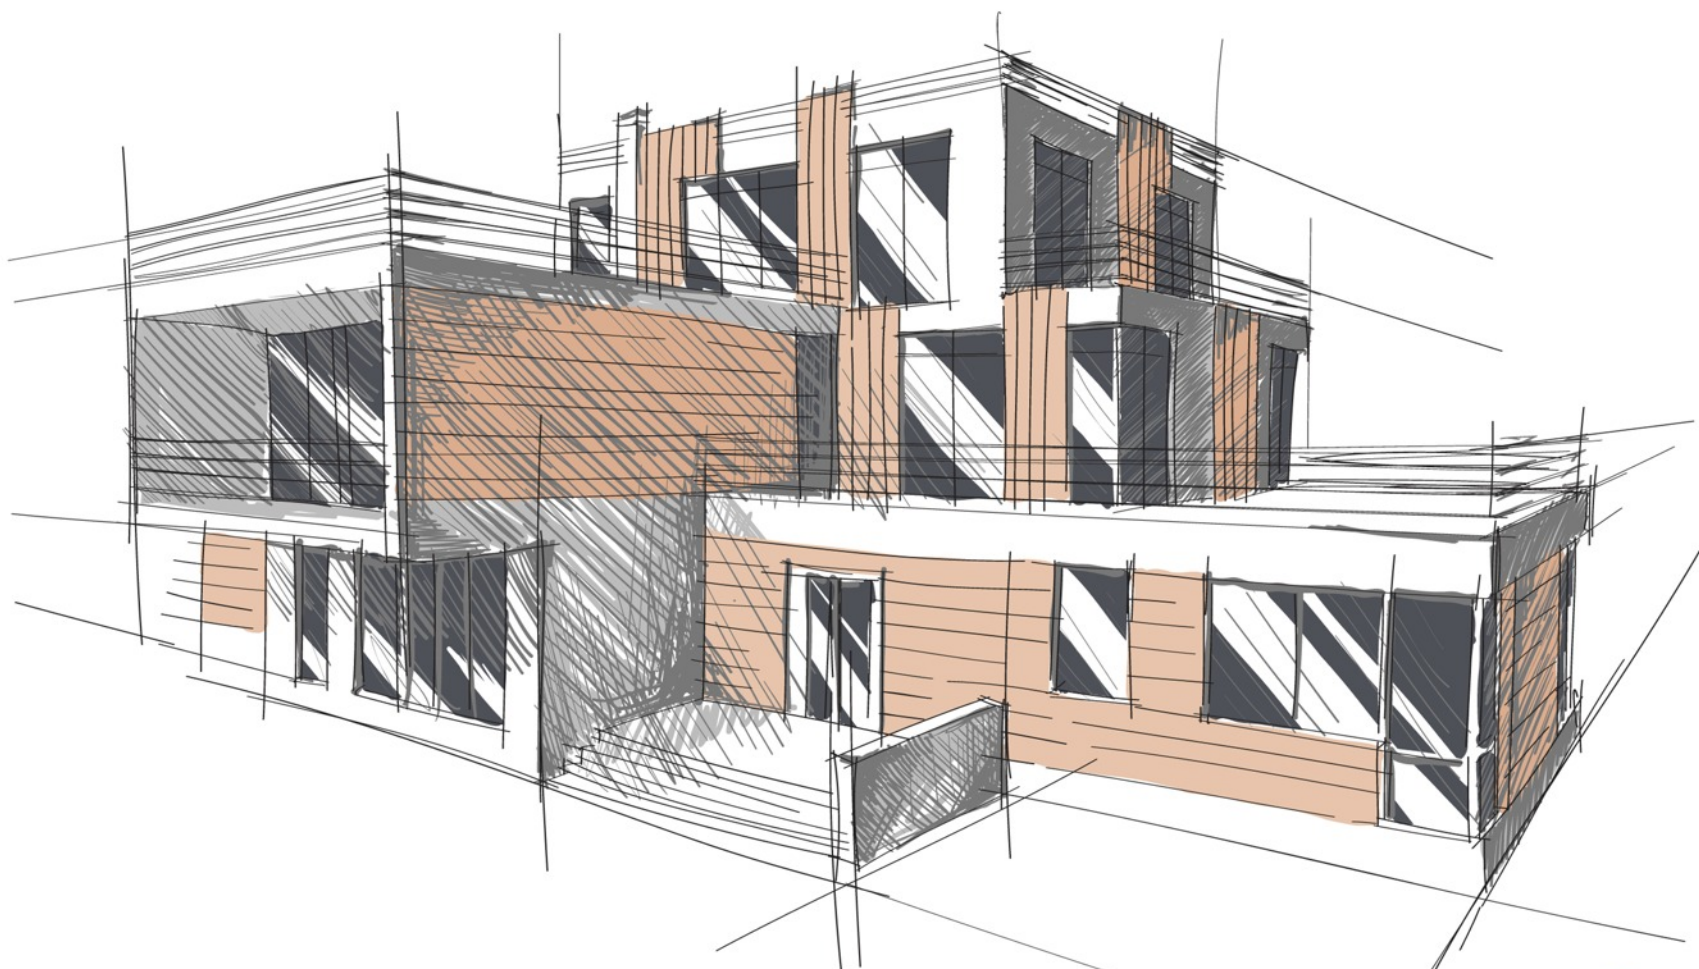

Giving a child hope, and assuring them that they are important. At Little Lambz Crèche we envisage this year to bring about restoration, change and progression. Apart from our Crèche being a safe haven and a place of learning, it is also in dire straits. The objective with Containers of Hope is to revamp the crèche area, which has been a part of New Beginnings Care Centre for many years. We urge corporates and individuals to get involved in this very important project by means of finances or donations of containers.

THE CARE CENTRE RE-HOUSING PROJECT

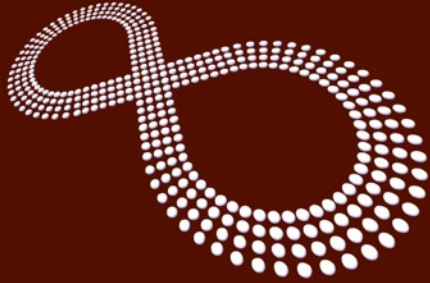

2016
CONTAINERS OF HOPE

Containers of Hope:

Currently Zozo huts are serving the purpose of providing shelter to an entire family. As the growing need becomes more rampant, we are unable to assist, due to space constraints. Assisting the destitute is our passion and calling, and therefore we are researching a new means of accommodation allowing us to stack refurbished shipping containers up to 4 storeys high. Thus enabling us to assist with the growing need.

Are you
Tough Enough
To take what it takes
To be called Tuff Enuff

New Beginnings 2016

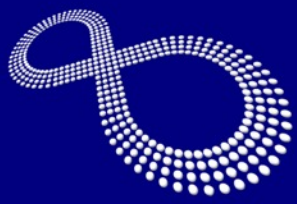

TUFF_ENUFF

TuffEnuff: The Executive, Unplugged...

NBCC Foundation challenges all executives to take part in the ultimate test of endurance. In today's society being cut off from the rest of the world seems to be a life sentence. Couple that with an environment where you are stripped of your title and your comfort zone. When the lights go off, it is only you, and your will to survive. Where "getting your hands dirty" means just that... Where your Egyptian thread count means an Egyptian counting threads, where your mid-morning snack means feeding 4000 other mouths... The question is: Are you TuffEnuff...?

SPONSOR A CHILD

Education is the most powerful weapon -
Which you can use to change the world -

Nelson Mandela

The **New Beginnings Sponsor a Child** initiative is to equip our Care Centre children with a befitting education from an early age, as the children often find themselves in circumstances where their parents are unable to provide for them.

It is said that one child can change the world

Your support will help us bridge the gap for those that are less fortunate and hopefully ensure a better life and future for the next generation of responsible adults.
